(57)Abstract:

PROBLEM TO BE SOLVED: To manufacture a profound heat-insulating door having the appearance of a cubic effect economically at a low cost.

SOLUTION: A design stile unit 2 is installed on a heat-insulating flash panel type fundamental-performance unit 1 in a freely mounting-demounting manner in a door and the heat-insulating flash panel is used as the heat-insulating door and profound appearance having a cubic effect is obtained by the design stile unit 2. The heat-insulating doors having different appearance can be manufactured by changing the design stile unit 2, the heat-insulating doors having various appearance can be manufactured at a low cost, and the appearance of the existing heat-insulating door can be altered at a low cost.
